

Portfolio Commentary

Large Cap Core Growth

Q3 | 2018

MARKET REVIEW

Large-cap growth stocks led markets higher in the quarter, driven by solid U.S. economic growth and strong earnings gains boosted by recent corporate tax cuts. The S&P 500® Index rose 7.71%, delivering positive returns across all sectors with healthcare (+14.53%), information technology (+12.41%), industrials (+10.00%), and consumer discretionary (+9.34%) the highest performers. Materials (+0.36%), energy (+0.61%), and real estate (+0.86%) were the weakest performers.

The U.S. economy's slow and steady expansion continued to offer a constructive backdrop for stocks. While trade tariffs were an overhang for some companies, overall fundamentals remained strong and earnings expectations quite high. Job growth was solid, wages were rising, and consumer confidence hit a new high, though housing and car purchases appeared to be stalling. However, we are also certainly closer to the end of this growth cycle than the beginning, with increasing late-stage signals, particularly in cyclicals. Inflation has also finally begun to emerge, especially in segments of the Producer Price Index, which is not necessarily a bad thing at current levels but does suggest that the Federal Reserve will continue on its path to normalizing interest rates.

PERFORMANCE

The Large Cap Core Growth Composite's return of 9.20% (gross)/9.00% (net) outperformed the 7.71% return of the S&P 500 Index. Stock selection in the information technology, communication services, healthcare, and consumer discretionary sectors contributed to outperformance. Underweight positions in real estate, utilities, communication services, and consumer staples were also additive. Stock selection in the industrials sector and overweight positions in financials and materials detracted from returns.

Square and Apple were among the strongest stock contributors.

- Mobile payment solutions firm Square's stock rose on strong revenue momentum, overcoming initial concerns about lower-than-expected third-quarter guidance. The company also announced plans to expand beyond its core payment products to offer other financial solutions for small businesses, including payroll, providing a path forward for growth acceleration to continue longer term.
- Technology leader Apple's stock climbed after the company beat expectations for both revenue and earnings per share. Its services business, which includes the firm's iCloud, Apple Music, and App Store offerings, was a particularly bright spot for revenue, rising 31% on a year-over-year basis. Shares were also lifted by growing investor excitement around expectations for new iPhone announcements at the company's September product launch event.

S&P Global and Texas Instruments were among the largest stock detractors.

- Despite strong earnings, financial information and analytics firm S&P Global fell on concerns that rising interest rates could result in softness in its bond rating business as fewer issues come to market due to higher yields. We continue to hold the position but are closely monitoring it.
- Semiconductor firm Texas Instruments reported solid financial results but lagged on analysts' broad-based outlook downgrade for the sector related to elevated inventory and general weakness in orders and the industrial cycle. Trade tariff concerns also weighed on shares. We maintained the position, as the company appears relatively well positioned compared to competitors, and it is the portfolio's sole semiconductor holding after we sold Lam Research during the quarter.

PORTFOLIO CHANGES

We initiated a position in CVS Health and, as mentioned, exited Lam Research.

- Retail pharmacy and healthcare company CVS Health was a new holding we purchased based on growing confidence that its mega-merger with managed healthcare company Aetna will be approved. The combined firm will bring together a powerful array of health insurance, pharmacy benefit management, and retail distribution all under one roof.
- We sold semiconductor firm Lam Research given the sector's weak outlook.

OUTLOOK

While we remain positive in our outlook for stocks, we also recognize there is a lot of optimism priced into current valuations, and it has become increasingly harder to surprise investors on the upside. The fundamentals of the economy and general stock market are broadly quite good, but trade tensions, higher production costs, rising bond yields, and slowing global growth are also elevating general market nervousness. Against this backdrop, we are paying even closer attention to risk exposure, constantly reevaluating and reconfirming our thesis for each stock and ensuring we have the right position size for current market dynamics and today's higher valuation levels.

It is not intended to be, and should not be construed as investment, legal, estate planning, or tax advice. Silvant Capital Management does not provide legal, estate planning, or tax advice. Investors are advised to consult with their investment professional about their specific financial needs and goals before making any investment decisions. Portfolio characteristics, sector analysis, and holdings exclude cash and may change at any time.

* eVestment Alliance (eA) is a manager-reported database on hundreds of investment managers and thousands of investment products covering a full range of asset classes, investment styles, and geographic concentrations. Based on manager input, eA independently constructs universes using qualitative and quantitative factors. The investment products are organized into peer groups and assessed on an ongoing basis to ensure the consistency of a product's attributes within a designated style classification. In addition, eA utilizes style analysis tools, performance analytics, and the review of a product's investment strategy narrative in the construction of wide-ranging universes that are both pure in style and consistent over time.

The eVestment Number of Portfolios represents the number of investment products included in the calculation of the median return for the given eVestment universe for the given time period. Individual investment managers may have more than one investment product included in the universe, so the number of observations will likely be greater than the actual number of investment managers represented.

HOLDINGS DISCLOSURE

The information provided in this report should not be considered a recommendation to purchase or sell any particular security. There is no assurance that any securities discussed herein will remain in an account's portfolio at the time you receive this report or that securities sold have not been repurchased. The securities discussed do not represent an account's entire portfolio and in the aggregate may represent only a small percentage of an account's portfolio holdings.

It should not be assumed that any of the securities transactions or holdings discussed were or will prove to be profitable, or that the investment recommendations or decisions we make in the future will be profitable or will equal the investment performance of the securities discussed herein.

IMPORTANT RISK CONSIDERATIONS

Equity Securities: The market price of equity securities may be adversely affected by financial market, industry, or issuer-specific events. Focus on a particular style or on small or medium-sized companies may enhance that risk. **Growth Stocks:** Growth stocks are typically sensitive to market movements because their market prices tend to reflect future expectations. When it appears those expectations will not be met, the prices of growth stocks typically fall.

Silvant Capital Management LLC claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Silvant has been independently verified for the period March 31, 2008 (the date of the Firm's founding) through December 31, 2017. A copy of the verification report is available upon request. Verification assesses whether (1) the firm has complied with all the composite construction requirements of the GIPS standards on a firm-wide basis and (2) the firm's policies and procedures are designed to calculate and present performance in compliance with GIPS standards. Verification does not ensure the accuracy of any specific composite presentation.

- Silvant Capital Management LLC ("Silvant") is an SEC-registered investment adviser and is a wholly owned subsidiary of Virtus Partners, Inc., a wholly owned subsidiary of Virtus Investment Partners, Inc. ("Virtus"). Registration of an investment adviser does not imply any level of skill or training. Silvant manages assets on behalf of institutional and retail separate accounts and mutual funds. Silvant became an affiliate of Virtus effective June 1, 2017, when Virtus acquired RidgeWorth Capital Management LLC and RidgeWorth Investments ("RidgeWorth"). Silvant was created March 31, 2008, when all of the investment decision-makers associated with the growth equity investment strategies of RidgeWorth became employees of Silvant. The staff and decision making process remained intact and independent within Silvant. For composite reporting purposes, the Firm is defined as all equity portfolios managed by Silvant. Composite performance results are linked to performance history generated at RidgeWorth.
- The Large Cap Core Growth composite includes fully discretionary investment accounts and registered and unregistered mutual funds managed in accordance with the large cap core growth equity style, with the objective of investing in in stocks with a competitive advantage, strong profitability metrics, above average free cash flow, above average operating margins and positive price trends. Under normal circumstances, Large Cap Core Growth Portfolios will have at least 80% of their assets invested in common stocks and other U.S. traded equity securities of Mid to large cap companies. U.S. traded equity securities may include American Depository Receipts ("ADR's"). Silvant considers large cap companies to be companies with market capitalizations similar to those of companies in the S&P 500 Index and the Russell 1000 Growth Index. Silvant will seek out securities it believes have strong business fundamentals, such as revenue growth, improving cash flows, increasing margins and positive earnings trends. The gross of fee return for the mutual funds is calculated by adding back the fund's published total operating expense ratio to the net of fee mutual fund performance. A complete description of the composite is available upon request.
- The Large Cap Core Growth composite includes the performance of the equity portion of balanced accounts. Cash returns have been allocated using a predetermined cash allocation mix approach. Such "carve-outs" represent the following percentages of the total market value of the composite: 1.2% at December 31, 2008, and less than 1% at and December 31, 2009. Beginning January 1, 2010, all equity segments are managed with their own cash balance.
- The benchmark for the Large Cap Core Growth composite is the S & P 500 Index, an unmanaged index of 500 selected common large capitalization stocks (most of which are listed on the New York Stock Exchange) that is often used as a measure of the U.S. stock market. The index is calculated on a total-return basis with dividends reinvested. Index returns do not reflect the deduction of any fees or expenses.
- The three-year annualized standard deviations for the composite and the benchmark index are calculated using monthly returns.
- Valuations and returns are computed and stated in U.S. Dollars.
- Beginning March 31, 2008, composite policy requires the temporary removal of any portfolio incurring a client initiated significant cash inflow or outflow of 10% or greater of portfolio assets. The policy was suspended effective November 1, 2015.
- The dispersion of annual returns is measured by the equal-weighted standard deviation of portfolio returns represented within the composite for the full year. Partial year dispersion is measured by the equal-weighted standard deviation of portfolio returns represented in the composite for the partial year period. No dispersion is reported for periods with five or fewer portfolios (shown as N/A).
- Returns are calculated based on total return which (a) includes cash returns, realized and unrealized gains plus income; (b) utilizes trade date and accrual accounting; and (c) is after the deduction of actual trading fees and expenses. Portfolio returns are calculated utilizing daily valuation. Composite returns, calculated monthly, are the weighted average return of the underlying portfolios using beginning-of-period market values. Composite gross of fee returns do not reflect any deduction for investment advisory fees, custodial charges or other costs that a client might incur in connection with the management of an account. Composite net of fee performance is calculated assuming a fee of 0.75%, the highest fee for this type of investment account.
- The standard management fee schedule applicable to large cap growth equity accounts is as follows: 0.75% on the first \$10 million, 0.45% on the next \$40 million, and 0.25% on all over \$50 million. Minimum annual fee is \$10,000. Actual investment advisory fees incurred by clients may vary.
- This composite was created March 31, 2008, the inception date of Silvant, and continues the investment strategy of a composite originally created in 2001. The composite has performance history with an inception date of January 1, 1995.
- The minimum portfolio size for the Large Cap Core Growth composite is \$500,000. For further information, please refer to Form ADV Part 2.
- Policies for valuing portfolios, calculating performance, and preparing compliant presentations are available upon request.
- A complete list and description of firm composites and performance results is available upon request.
- Past performance is not indicative of future results and no investment is guaranteed for return of principal and/or return on investments. Results will vary among accounts. All information provided and used in calculations is believed to be correct, but accuracy cannot be guaranteed. Please consult with a financial professional before investing.
